“Prime areas are fundamental, work together and move through to support development in all other areas”

(Development Matters 2012)

Every topic will have a book focus (fiction / non-fiction) and will be cross curricular with ALL areas of learning through a balance of adult led and child initiated activities.

Where relevant, children will also learn about multicultural festivals, celebrations and seasons throughout the year. (A unique child).

Child initiated activities will be done through in the moment planning and based on the children’s interests as well as the topic focus (enabling environment & positive relationships). Maths adult led will be on rotation throughout the year and literacy will be taught through Read Write Inc on a rolling programme.

We will also be touching on other religions and festivals throughout the year, ensuring a wider insight into the world.
